### BREED THEATER.

"Camille," Pathé's Marvelous Film Masterpiece.

Truly a superb film is the wonderful creation of Pathé Freres, entitled Camille, portraying the ever pathetic and familiar story as told in the famous novel of Alexandre Dumas. The producers of the splendid picture have employed to make the picture a masterpiece of the leading lady of the theater of Rome, and it can be safely said that no picture this year has equalled this sumptuous representation, either in acting or settings. All of the gorgeous side of Marguerite's life is used in this production, and the exquisite and costly gowns worn are the subject of great admiration.

The beautiful scenes of the tranquil days spent in the country are clearly shown, and again at the great finale, when the heroine sees as in a dream the vision of the old days, all the skill of the photographer is brought into play, and the closing portion has the harrowing parts eliminated, leaving a new impression of the Lady of the Camellias.

The Biograph story of the circus is distinctly a novelty, and is carrying a powerful romance that keeps the spectators interested to the last moment.

Miss Wolcott sings "Then You'll Remember Me" in a sweetly simple manner, winning to the hearts of all, and convincing all of her great ability.

## CAUSE OF MUCH SICKNESS

One reason so many people take cold during the winter months, according to a well-known authority, is the hot, dry atmosphere indoors, due to imperfect heating. If we were as careful to keep the air in our rooms moist as we are to keep them warm, there would be less occasion for cough medicine than is now the case.

Of all the so-called minor ills of the body, there is none the neglect of which is so liable to result seriously as the "common cold." The cough irritates the mucous membrane of the throat, lungs and bronchial organs, leaving them sore and inviting attack from the countless germs of dread tuberculosis which infect the air we breathe.

A simple, inexpensive cough medicine can be made by mixing two ounces of Glycerine, a half-ounce of Virgin Oil of Pine compound pure and eight ounces of pure Whisky. Shake well and take a teaspoonful every four hours. It will break up a cold quickly and cure any cough that is anything but severe.

Prescribed and is highly recommended by the Leach Chemical Co., of Cincinnati, Ohio, to prevent the spread of Oil of Pine compound pure for dispensing through druggists.

"How far is it between these two towers," asked the lawyer. "About four miles as the flow cries," replied the witness. "You mean as the crow flies," said the lawyer. "No, my means as the fly cries." And they all looked at each other, feeling that something was wrong—Everybody's Magazine.
